PRIMARY NAICS 541990

OUR MISSION : To research, develop, and field advanced capabilities that will have a direct impact on improving global crisis responses.

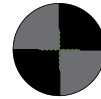

TDG conducts requirements based development of materials, technologies, products, and educational curricula that contribute to security, defense, and disaster preparedness. TDG also functions as a support and management firm that can provide experienced personnel to solve today's complex problems.

RESEARCH

Conducting research, development, and operational testing and evaluation for research partners, products, and materials.

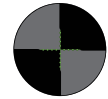

- Blast mitigation
- TBI research support
- Weapons & energetics
- Advanced materials
- Advanced technologies
- Component testing

SERVICES

Providing specialized personnel, program management, and services support to meet customer needs. We also implement training programs that are outcomes-based and transfer quantifiable capabilities to end users.

- First Responder Casualty Care (TECC/TCCC)
- Self-care and survival
- Austere medicine
- Mass Casualty Incident (MCI) management
- Active shooter responses
- Exercise support
- Special skills packages

MANUFACTURING

Designing custom safe rooms, blast resistant shelters, weapons components, and specialized equipment to meet your requirements. We can provide integrated facility response kits with full programs of instruction.

- Fire Rescue Kit (FRK)
- OSAR : Operational Search and Rescue Kits
- IFAK: Individual First Aid Kit
- LE fire suppression kit
