RALEIGH Sep' 3d. 1831—

My dear Sir/

Is it my colour, or my insignificance or the gross ignorance, which my many letters contain, is the reason why you have never condescended to answer one of them? Or is it your distrust of my professed firm, unshaken, unabating friendship for you & your family? Or do you consider my friendship to be not worth your notice? Be it as it may, I must plainly & honestly tell you that I have ever been grieved, that you were the profissed political friend of G. Jackson, because I ever believed him to be expressly
what he has proved himself to be—The letter of Gov. Branch, has put the capstone upon the whole business of the Cabinet. It is a fair unvarnished statement of facts, clinching beyond the shadow of a doubt, the statement of Mr. Ingham & Judge Berrien [Berrien] & you as an honest statsman (as I believe you to be) cannot keep sides with him any longer, therefore put on again, your full coat of Federalism, & not only support the election of Clay, but go forth to Congress with a full determination to support the renewal of the United States bank, to trample under foot the doctrine of Nullification, to support the Tariff in its main bulwarks, & to support Internal improvements, in a word to prove that you are an American in the full sense of the word—

I have told you to put on your coat Federalism again. You know that you have been for some time past, hoping & shifting about, showing your coat, to be sometimes Federalism, sometimes Democracy, sometimes Republicanism. Now you know this wont do, because you know that no political stratagem whatever can shake the foundation of Federalism. Why will you be afraid & cast & shift about? If you will now repent of your sins & promise to do better I shall hope that those of the Washington school, will forgive you—But Oh this Potter business was ever the like done before—guilty or not guilty? Please to drop us a line by Mr. Devereaux & let us know the beginning & the effect, for the reports are as various here, as that abominable insurrection in Southampton, was in its out set. For my part I cannot believe that either of the parties are guilty—

Please to give my best respects to Mrs Mangum & tell her that I am the same old two & sixpence towards her & her children, & that she need not think it strange, that I should say, that her children will never be taught the Theory of the English Language unless I teach them, I say so still, I learnt my Theory from Lindley Murray's spelling book which no other Teacher in this part of Country Teaches but myself & I think it preferable to the English Grammar—

---

23On August 22, 1831, Secretary Branch wrote Edward B. Freeman of Halifax the reasons for his resignation from Jackson's Cabinet. His letter was printed in the Halifax Advocate and reprinted in other papers. In this letter he reviewed the controversy over Peggy Eaton. His chief complaint was against the President's dictation on social matters. N. C. Free Press, September 13, 1831.

24Robert Potter's attack on Lewis Taylor and Lewis Willie.

25Thomas P. Devereux, an attorney and large planter of Raleigh, served for many years as reporter of the state Supreme Court and as the Federal district attorney. Hamilton, Papers of Ruffin, I, 447n; II, 6n.

26The Nat Turner Insurrection.

27Lindley Murray, 1748-1826, after studying law amassed a comfortable fortune as a merchant. Retiring in 1783 and settling in England, he began writing spelling books and English grammars which were so widely used that it is estimated that about 2,000,000 copies were sold. D. A. B., XIII, 365-366.
I see, my son Priestly as I expected is not elected. Yes & you may tell him from me, that unless he lay aside that stubborn unyielding disposition of his & become condescending & familiar he will never set the River on fire, neither for himself or his children.

I am your Obt Lble set—

JOHN CHAVIS
