Beer Bible

May 2017

We have a great range of craft beers available to drink in and to take away. We have beers from some of the world's best new breweries including Electric Bear (naturally), Magic Rock, Beavertown, Tiny Rebel, Cloudwater, Fierce, Siren, Wild Beer, Northern Monk etc. This range will keep on growing, and the selection will vary over time, which means that from time to time beers on the list may not be available or have recently sold out - please ask us. Please also let us know if there are any beers or breweries that you would like to see here at Fire And Brew and we will try to get them in for you.
