SAFETY INFORMATION

IMPORTANT: Please read, understand, and comply with all of the instructions provided in this manual before using the device. Failure to comply with the instructions given in this manual and/or using the device in ways other than the ones mentioned in this manual may result in serious injury and/or damage to the product.

Safety Use & Care

- Keep out of reach of children.
- Avoid exposure to high-temperature sources, direct sunlight, and humid environments. The lamp is for indoor use only.
- **DO NOT** strike or drop the lamp. The salt crystal inside the housing or the housing itself may break.
- **DO NOT** wash with water or detergents. Do not immerse in any form of liquid.
- **DO NOT** place the salt lamp near any electrical appliances. The natural evaporation may humidify or damage your appliances.
- Due to the nature of salt, each crystal varies in color and weight.
- If the salt crystal becomes moist, set the lamp to its highest setting to allow the salt crystals to dry.
- **DO NOT** replace the bulb while the lamp is connected to a power source.
- **DO NOT** remove the salt crystal from the housing as this will void your warranty.
- Although the salt crystal is non-toxic, it is not made for consumption and may present a choking hazard.
GETTING TO KNOW THE FAUNA

2. Decorative Panel
3. Salt Crystal
4. Magnetic Pads
5. Water Collection Box
6. Bulb Socket
7. Light Bulb
8. Lighting Control
9. Power Cord
GETTING STARTED

1. Remove salt lamp from packaging.
2. Place salt lamp on a flat, level surface.
3. Plug the salt lamp into an electrical outlet.

**NOTE:** DO NOT place the lamp in high-humidity environments such as bathrooms or saunas; this may damage the product and cause it to malfunction.

OPERATION

<tr>
<td>Tap the lighting control button once.</td>
<td>Press and hold the lighting control button and release at the desired brightness.</td>
<td>Tap the lighting control button once while the salt lamp is on.</td>
</tr>
</tbody>
</table>

**NOTE:** The lamp will remember the last mode and brightness level when turned on and off; however, this memory function will not work if the plug is pulled while the lamp is on.
1. Turn off and unplug the salt lamp.
2. Lay the lamp down to reveal the screws securing the bulb socket. Remove the screws with a phillips head screwdriver.
3. Insert a pen or pencil into the pinhole to carefully remove the bulb socket.
4. Once the bulb socket has been taken out of the lamp housing, remove the old light bulb.
5. Install a new C7 15W bulb into the bulb socket.
6. Carefully replace the bulb socket back into the lamp housing and replace the screws.
General Maintenance

- Regularly dust off the lamp housing, decorative frames, and salt crystal with a dry clean cloth.
- DO NOT remove the salt crystal for any reason as this will void your warranty.
- If not in use for a long period of time, store the lamp in a cool and dry environment, covering the crystals with a plastic bag.
- The lamp may naturally moisten in humid environments. If used in a humid environment, keep the lamp lit for several hours for the crystals to naturally dry out.
- If the salt crystals become moist, gently pat them down with a dry clean cloth.

Removing the Water Collection Box

Your new salt lamp has two internal water collection boxes to collect excess moisture buildup. Follow the steps below to properly remove the water collection boxes.

1. Turn off and unplug the lamp.
2. Use your hands to remove the decorative panel covering the salt crystal.
3. Remove and empty the water collection box and dry it with a clean cloth.

4. Place the water collection box back into the lamp. Replace the decorative panel, making sure it is properly aligned with the housing.

5. Repeat steps 2-4 for the other side of the salt lamp.

**NOTE:** DO NOT use sharp tools or objects to remove the decorative panels; doing so may damage the panels or the salt crystal.
