

Hummingbird Blues

You've got a way of living
Lord it makes me feel so fine
You've got a way of living
Lord it makes me feel so fine
You're the tonic for my troubles
That gets me reeling every time

I've never been to China
But I'd like to go there now with you
I've never been to China
But I'd like to go there now with you
We could sail out on that slow boat
Just like the way they used to do

That hummingbird's singing his songs
He don't give a damn who can hear it
My heart is singing along
I'f I'm not in heaven now I swear I must be near it

When I think about you darling
Oh it sets my heart aglow
When I think about you darling
Oh it sets my heart aglow
There's so many ways you send me
That you don't even know

That hummingbird's singing his songs
He don't give a damn who can hear it
My heart is singing along
I'f I'm not in heaven now I swear I must be near it

Gonna find your loving waters
Gonna wash my spirit clean
Gonna find your loving waters
Gonna wash my spirit clean
That river that reminds me
Life ain't as cruel as it seems
