

Wait For Me

Gonna miss you in the morning  
Gonna miss you when I'm gone  
With that bitter sweet sorrow  
Of a heart that hanging on

Will you wait for me  
Will you wait for me

No I ain't too proud to ask it  
Cause I really need to know  
Will you watch after this fire  
Keep it burning when I go

Will you wait for me  
Will you wait for me

That big jet plane is leaving  
To take me far away  
But right here with you darling  
Is where my heart will stay

Though I got to say goodbye now  
Though I know we have to part  
Won't you give a little comfort  
To the pain that's in my heart

Say you'll wait for me  
Say you'll wait for me

Cause I'll be coming back here  
When the autumn moon is due  
I'll be falling at your feet  
Before the leaves of autumn do

Will you wait for me  
Will you wait for me

That big jet plane is leaving  
To take me far away  
But right here with you darling  
Is where my heart will stay

That big jet plane is leaving  
To take me far away  
But right here with you darling  
Is where my heart will stay

Gonna miss you in the morning  
Gonna miss you when I'm gone  
With that bitter sweet sorrow  
Of a heart that hanging on
