

Fire In My Heart

You've got a lot of nerve
The way you keep me hanging on
Cause I can't let you go
Guess I've been loving you too long

And every time I try to walk away
Something inside me always makes me stay
'Cause I just can't put out this fire in my heart

I gave you all I had
Wish I could take it all back now
But I can't start again
'Cause I got a heart that don't know how

And maybe I don't know what's good for me
And I'd be better off for getting free
But I just can't put out this fire in my heart

You got me hooked on you
And your bad love
That only makes me blue
And what's sad about it
Is I can't do without it

Sometimes I wish
Sometimes I wish we never met
Then I wouldn't know this pain
Wouldn't know this sadness and regret

But every little bit of hurt I feel
Is a part of me that knows this love is real
'Cause I just can't
Put out this fire in my heart
I got a fire in my heart

And every time I try to walk away
Something inside me always makes me stay
'Cause I just can't put out this fire in my heart
This fire in my heart
Got a fire in my heart
