

## Keep On Walking

You've been chasing shadows  
In the fault lines of your past  
You've been sailing blindfold  
With your back tied to the mast  
Don't give in to bitterness  
When it's snapping at your heels  
It takes a dream to see it  
Blood sweat and tears to make it real

You gotta keep on walking  
When your heart is sinking low  
Keep on walking  
When you feel like letting go  
Keep on walking  
Cause I know it won't be long  
If you keep on walking  
And hold on

You can't teach a turtle  
How to crawl into the sea  
You can't know the future  
That's just the way it has to be  
You can't turn the clock back  
You can't change what's gone before  
But if you just believe it  
You can open any door

You gotta keep on walking  
When your heart is sinking low  
Keep on walking  
When you feel like letting go  
Keep on walking  
Cause I know it won't be long  
If you keep on walking  
And hold on

Don't get burned out  
From running blind  
Work that dream out  
One step at a time

Ain't no struggle  
Ain't no suffering or pain  
Won't be rewarded  
When the winds of fortune change  
Don't let those snipers  
And backbiters bring you down  
Keep your head together  
And your good foot on the ground

You gotta keep on walking  
When your heart is sinking low  
Keep on walking  
When you feel like letting go  
Keep on walking  
Cause I know it won't be long  
If you keep on walking  
And hold on
