

Stay

It's such a happy accident that played it's part  
That butterfly caused you and I to meet  
It's not like me to go and lose my head like this  
But I can't deny you've knocked me off my feet

Won't you stay  
Now the night is full of magic  
Won't you stay  
Now the fire is so high  
Stay now my heart is full of music  
Don't break this spell by telling me goodbye

I can't believe this night of nights you found me here  
When I was oh so desolate and sad  
The moment that you turned you head and smiled at me  
I clean forgot the troubles that I had

Won't you stay  
Now the night is full of magic  
Won't you stay  
Now the fire is so high  
Stay now my heart is full of music  
Don't break this spell by telling me goodbye

I know it's late but I don't want to say goodnight  
Wish I could stop that clock dead on the wall  
Cause something in your eye's has got the best of me  
I'm doing all I can do not to fall

Won't you stay  
Now the night is full of magic  
Won't you stay  
Now the fire is so high  
Won't you stay  
Now my heart is full of music  
Don't break this spell by telling me goodbye

Solo

Won't you stay  
Now the night is full of magic  
Won't you stay  
Now the fire is so high  
Stay now my heart is full of music  
Don't break this spell by telling me goodbye
