

Blue Flame

Don't know how you burn
So cool and hot
I can't get enough
Of the thing you got
You drive me crazy
When I see you
Wear your hair down low

Well I get tongue-tied
When you talk to me
I guess I'm love sick
As a man can be
I'm on a string
I'd let you take me
Where you wanna go

Blue flame
Blue flame
I can feel your fire burning in my veins
And I wonder could I mean something to you

Oh I lose my mind
When you catch my eye
I got no defense
Got no alibi
Deep inside me
Something 'bout you
Keeps me hanging on

Yes you made a mess
Of my best laid plans
Now I'll I want
Is to be your man
I can't fight it
Now my heart is
Singing to your song

Chorus
