   c) New sign-in sheet was made for office hours, it will be posted in the office ASAP

2. Member Announcements
   a) Amar Venga – Math/Applied Math Rep
      - How do the audio recordings backup the legitimacy of the minutes?
      - Frank: The audio will not be wrong, but if you have an issue with the overall wording of motion, you can amend it.

3. Presentations to Council
   - No presentations to council

4) Western Song
5) Land Recognition
6) Council Business
   - Motion 1: Motion to Ratify New Schulich Senator
     o Frank: Motion was very last minute because the whole process has been messy. She was elected by a 7-6 vote on the Tuesday before reading week. The senators were misinformed, but there is a motion going through Saturday with the senators. She is pending election by the senator body.
     o Montana: Motion to call to question
     o Q&A:
       ▪ Daniel: There is new information that came up recently. There will be a motion, but the faculty can nominate anyone on the floor and they are allowing floor nomination. For that meeting, I would strongly suggest passing this motion at the next meeting.
       ▪ Victoria: Is there a reason why she has to get nominated today?
       ▪ Beth: What was the reason she was elected and why are they going back on it?
       ▪ Daniel: Most senators misread the senate procedure, but the ADHOC will put the nomination in for Cleo, but they are allowing floor nominations
       ▪ Peter: Why can’t we wait until next week?
       ▪ Frank: Even though this motion is 0 risk, the senate has pulled the process from underneath the student senators. I am going to go to
meetings with the Dean of Science. If we did pass this, it would send the motion that the Science Students’ Council supports Cleo and her nomination.

- Victoria: Is it up to SSC to take charge?
- Frank: Not really taking charge, we are just taking a stance.

- Vote on Call to question
- Motion has not passed
