Grooming

Equine Healthcare International is a cutting-edge company with an exciting twist on the equine healthcare market! Based on the principles and values of traditional horsemanship, EHI founders and staff bring years of experience to the equine healthcare industry. We are riders, trainers, veterinarians and equine care providers who collaborate to create ingenious products to meet the needs of horses and their riders worldwide.

The offices of EHI are located within a working sports medicine veterinary clinic/conditioning center, giving us direct access to horses and their support staff. The constant contact with horses inspires new product ideas and offers a convenient forum for testing and developing the products.

Bit Butter

Bit Butter replenishes moisture and restores feeling in dry, callused, unresponsive areas of the horse's mouth. Enriched with a "mouth softening complex" that includes Mango & Shea Butter, Peppermint & Soybean Oil, Vitamin E, Bees Wax & Jojoba. It encourages acceptance and improves focus on the bit - also prevents rubbing of the mouth and helps heal where skin is already broken.

Pomms Equine Ear Plugs

Specially designed to improve focus and encourage relaxation by allowing your horse or pony to hear normal tones, while greatly reducing distracting or loud noises. Our "comfort plus" design features soft, comfortable, non-irritating materials that protect your horse's or pony's sensitive ears from wind, water and debris. POMMS® & PONY POMMS® are discreet, durable and won't fall out. For best results, store in original tube when not in use.

Lip Butter Rider's Therapy

At the request of our Bit Butter® fans, we have taken our all natural formula and modified it for use as a luscious lip butter for equestrians. Our unique blend of natural oils and butters will delight the Rider's mouth.
