

# TEACHER TRAINING

Our teacher training workshop helps to improve communication between teachers and students.

An insight into the experience and impact of gender stereotypes on our young people and the value of deepening social capital with peers.

## WHAT TO EXPECT

Our high experienced facilitators will run through an engaging experience similar to what students partake in, in the Tomorrow Man and Tomorrow Woman workshops. We will share experiences and learnings from working with teenagers for over 15 years.

**We will provide you with a toolkit to continue honest communication, creating more meaningful bonds beyond the room.**

There will be an opportunity for questions about the workshop and how to continue strengthening relationships. Follow up workshops are available and can be tailored to suit your school or cohort.

Our 'Teacher Training' workshop can be delivered virtually or face to face.

**So different from other workshops.  
Fun and not dry at all.**
