LAUNCHPAD GRANT

Concept Paragraph

***THIS IS FOR GUIDANCE ONLY. ALL CONCEPT PARAGRAPHS NEED TO BE SUBMITTED VIA SMApply***

INSTRUCTIONS: This is your space to tell us about your idea! We want to hear about your vision for how your research question, logic framework, and/or approach will impact global health equity, and how the Launchpad grant helps achieve your goals. Some questions to consider:

- What is the problem you are proposing to address and how is it a problem of health equity?
  - Please Note: the justification that the problem is a health equity issue solely because it occurs in a low-income setting is insufficient. We are looking for details on how specific populations are disproportionately affected.
- What is your vision of the world after you address this problem?
- How will the Launchpad grant help you achieve that vision?
- How will communities affected by this problem contribute to the problem identification, solution design, and long-term sustainability of the project?

WORD LIMIT: 300 words. Paragraphs exceeding this will not be considered.

APPLY: Visit [https://jhualliance.fluidreview.com](https://jhualliance.fluidreview.com) to submit. Applications are due by 11:59pm on Friday, September 6, 2019.
