

LIST OF UPDATES TO THE 2023 GUIDE

Updates to the 2023 Reporting Guide for Research and Evidence Based Practices in Children's Mental Health as of July 13, 2023.

Page	Update
8	Added Key Term: Client Friendly Language
10	Added explanatory text: "Why do some EBPs have a code that correlates to their training entity and some have a shared code correlated only to a treatment family? To reduce administrative burden in the reporting and billing of EBPs, when the EBPI began publishing reporting guidance, preexisting codes were kept in the guide while more recently approved and newer trainings have been brought in under a generic treatment family (i.e. CBT for trauma) for ease of reporting."
11	Added language under Essential Elements and Treatment Plans: "Per WAC 246-341-0640, clinical record content for individual service plans and treatment plans must include terminology that is understandable to the individuals and the individual's family or legal representative, if applicable. Client-friendly language options for documentation are listed throughout the guide."
