Use the recommended product description

SAGE Campus supports the teaching and learning of skills and research methods through 250+ hours of structured online learning. The courses are self-paced and instructor-led, comprised of an engaging mix of SAGE-quality content, video, interactives, and formative assessments. The flexible learning pathways cover critical skills and research methods that can be applied across all stages of academic study, including navigating information, data literacy, research skills, data science skills and getting published. The user-friendly platform makes it simple for faculty to assign courses or for students and researchers to learn autonomously - building practical skills for study, research, and the workplace.
