

Amino Rx™

**Power Your Performance with AARL's
"Ultra Growth Hormone Enhancer"**

Building Blocks

Amino Acids are the building blocks of life. Over 75% of your body is composed of these proteins, including all the tissues that comprise your hair, skin, nails, muscles, body organs and blood. Your hormones also consist of amino acids in specific ratios. Your health and well being are therefore linked directly to the quality and quantity of amino acids you ingest.

Precise Nutritional Fuel

When you are young, your body has the wonderful ability to digest and metabolize the foods you eat, creating abundant amino acids to fuel cellular regeneration and growth. As you age, your body's ability to manufacture amino acids declines. Without a rich supply of the best amino acids, you can become weakened and biologically old before your time. **Amino Rx™** supplies your body with the precise nutritional fuel needed to energize cellular regeneration and support the anti-aging process.

When **Amino Rx™** is utilized along with our other Growth Hormone products, such as **aeon™**, the synergistic effect enhances your body's youth promoting efforts, so you look better, feel better and perform better!

- Stimulates maximum HGH production
- Increases Growth Hormone release and utilization
- Assists lean muscle growth and repair
- Supports a healthy immune system
- Promotes increased strength and endurance
- Excellent for athletes and sports nutrition
- Excellent when dieting

Rebuild Your Body

Your body's amino acid requirements can significantly increase as a result of sports and exercise activity, and in periods of cellular regeneration such as during Growth Hormone therapy.

We created **Amino Rx™** to supply your body with the building blocks needed to enhance Growth Hormone production and transport, maximize cellular regeneration, and optimize sports and exercise performance.

When used with real Growth Hormone, **Amino Rx™** is a powerful enhancer to directly boost GH levels and is the perfect addition to any Growth Hormone, sports, exercise, or anti-aging protocol.

Cellular Regeneration

Amino Rx™ is a balanced nutritional support formula designed to maximize cellular regeneration. Its specifically sequenced amino acids and supporting compounds were developed to synergistically enhance our Growth Hormone and other anti-aging products.

Elevated Levels

A recent study reported in the *American Journal of Clinical Nutrition* concluded that even a single dose of the ingredients contained in **Amino Rx™** elevated Growth Hormone levels by over 400%.

By incorporating our exclusive complex of pure pharmaceutical grade amino acids, **Amino Rx™** is directed right to the essential cellular pathways that promote maximum Growth Hormone development. Additionally, amino acid requirements can significantly increase as a result of aging, sports and exercise activity, and during periods of cellular regeneration and exercise recovery.

No other formula approaches the quality and efficiency of **Amino Rx™**.

An All Natural Weapon In The Fight Against Aging

The exclusive **Amino Rx™** formula provides a concentrated amino acid complex designed to support maximum Growth Hormone synthesis.

If youthful living is your desire, **Amino Rx™** is the "must take" amino acid formula to optimize your personal anti-aging program.

Your Team

At **AARL**, we are committed to developing the most advanced nutritional tools in the field. All **AARL** products are compatible, and specifically designed for Growth Hormone Therapy. When taken together in any combination, they perform as an unmatched nutritional support team.

As pioneers in natural health and longevity research, we at **AARL** are committed to helping you reach your personal peak in your pursuit of staying young.
