OMEGA-V RX™

Complete Essential Omega 3-6-9 Fatty Acid & Lipid Complex

Action and Clinical Nutrioclogy

• Improve heart and circulatory function
• Optimize brain neurotransmitters
• Reduce arthritis pain and inflammation
• Strengthen cardiovascular cell wall integrity
• Produce supple, moist skin
• Help with Weight/Fat control and Diabetes
• Rebuild the Liver, remove atherosclerotic plaque
• Strengthen the immune system
• Reduce allergy symptoms
• Help against premature aging

750 mg/pc
100 capsules
Dietary Supplement

Modern food processing of today’s Western diet contains barely 1/10th of the needed Omega 3-4-9 essential fatty acids commonly found in healthy 19th century diets. Omega Rx™ is a scientific formulation of natural ingredients including:

EFA’s protect against chronic stress by inhibiting stress hormones, homocysteine, etc., by becoming prostaglandins, eicosanoids, etc., that may inhibit Alzheimer’s, dementia, heart disease and atherosclerosis. EFA’s affect circulation, cholesterol, clotting, blood pressure, and artery health. EFA’s are essential for brain, neuro-transmitters (memory, mood, brain, liver, kidney, thyroid and adrenal health, balancing hormones, and for healthy skin, hair and nails).

Phytosterols and Lignans. Naturally occurring sterols that enhance fat growth and regeneration of cells and provide strong anti-cancer properties.

Antioxidant Complex: Antioxidants are critical to protect and restore small capillary health throughout the body and brain, allowing for increased circulation, oxygen and nitro-oxide, while protecting eyesight degeneration and sexual function.

Targeted Micronutrients: Protects and regenerates cellular membranes, endothelial (veins, arteries, capillary) structures, and protect against metabolic and environmental toxins.

INDICATIONS AND USAGE
Omega Rx™ offers natural Omega 3-6-9 Essential Fatty Acids (EFA’s) and essential lipids, plus phytophrostanols and antioxidants. A deficiency of certain fats leads to cardiovascular, neurological and skin disorders. Lipids (fats) are the primary structural components of all cell walls & membranes, while also composing some 50% of the dry weight of the brain. Since the continuous demand for these important lipids (as a result of cellular regeneration) is being met by today’s “low-fat,” over-processed and hydrogenated fat-filled diets, supplementation of “healthy fats” is more vital than ever. Additionally, an increase in eating hydrogenated fats (“trans-fats”) causes a decrease in body fat levels, resulting in a more acidic blood plasma, which subsequently creates an environment that is a catalyst for cholesterol plaque build-up, heart disease and cancer. EFA’s are essential biological substances of our body, and without them in required supply, we prematurely age and are more prone to sickness and disease. Without EFA’s and essential lipids, we will look 10-20 years older than we should. Omega Rx is developed as a NutraCouncil Support Supplement to contain all essential Omega 3-6-9 Fatty Acids, plus healthy Lipids, Sterols and Antioxidants.

DOSEAGE AND ADMINISTRATION: As a dietary supplement for adults, take three (3 to 4) capsules at bedtime with fruit, or between meals. Or as recommended by your Healthcare Professional. For best results, please follow a healthy diet, exercise and lifestyle program. If you are pregnant, lactating or taking concurrent medications, consult your doctor before use.

KEEP IN A DRY PLACE. AVOID SUNLIGHT OR HEAT
KEEP OUT OF REACH OF CHILDREN

Supplement Facts

Serving Size: 3-4 Capsules

Amount Per Serving (based on 3 capsules) % Daily Value
Calories 15
Calories from Fat 15
Total Fat 1.5g 2%
Polyunsaturated Fat 1.5g
Saturated Fat 7.5IU 25%
Vitamin D (D-Alpha Tocopherol) 7.5IU 25%
Fatty Acid Oil 600 mg**
Doxycycline 600 mg**
Borage Seed Oil 600 mg**
Fatty Acid (Omega-3) 600 mg**
Total 7.4:1 AARL 3-6-9 Omega Complex 2337 mg.
Omega-3 Fatty Acids 630 mg**
Alpha Linolenic Acid (ALA) 330 mg**
Eicosapentaenoic Acid (EPA) 180 mg**
Docosahexaenoic Acid (DHA) 120 mg**
Omega-6 Fatty Acids 402 mg
Linoleic Acid 270 mg
Gamma Linolenic Acid (GLA) 132 mg**
Omega-9 Fatty Acids (Oleic Acid) 228 mg**

**Percent Daily values are based on a 2,000 calorie diet. **Daily value not established. Other Ingredients: Gelatin and lake pigments, NO OTHER CONTAIN ARTIFICIAL PESTLE, SALT, SWEET. SUGAR, GLAND, SALT. This product contains less than .5 mg of sodium per serving.
