Implementation and Outcomes Research RFP
Addendum 3
(Posted 07/03/2024)

Questions & Answers

Below are questions (verbatim unless otherwise noted) and answers regarding the RFP. The questions below were received from June 27, 2024 to July 3, 2024. Please check wacarefund.org for future updates.

1. Question [edited for clarity]: What will be the definition of in-kind resources and unrecovered indirect costs?

   Answer: Examples of in-kind resources include office/laboratory space, equipment, supplies, or employees or students supported by a non-state source (non-State of Washington). The applicant must provide reasonable estimates and documentation in the proof of non-state match submitted with the application. Unrecovered indirect cost is the difference between the amount charged to the award and the amount that could have been charged to the award based on your organization's federally approved indirect cost rate. For more information, please see the non-state match requirements in the RFP.

2. Question: For matching funds through the NIH grants, do we only consider the direct cost or total award amount?

   Answer: Federal sources of non-state matching funds can include both direct and indirect costs.
