COMMUNITY SUPPORTED AGRICULTURE (CSA)
is a way for consumers to buy local, seasonal produce or meat directly from a farmer in their community.

Here are the basics: a farmer offers a certain number of “shares” to the public. Typically the share consists of a box of vegetables, but other farm products may be included. Interested consumers purchase a share (aka a “membership” or a “subscription”) and in return receive a box (bag, basket) of seasonal produce each week throughout the farming season.
