FRONT DESIGN

Sofia Lagerkvist och Anna Lindgren utgör den svenska designgruppen Front.

Deras verk baseras på gemensamma diskussioner, utforskningar och experiment och de är inblandade i projekten från idéskiss till slutprodukt.

Fronts designobjekt kommunicerar ofta en historia till observatören om designprocessen, materialet produkten är tillverkad av, och/eller om konventioner inom designområdet. I sitt arbete har de tilldelat en del av designen till djuren, datorerna eller maskinerna.

De har gjort en ständigt föränderligt interiör, skapat föremål med explosioner, robotmöbler och en rad möbler inspirerade av deras fascination med magi.

Sofia Lagerkvist and Anna Lindgren are the members of the Swedish design group Front. Their works are based on common discussions, explorations and experiments and they are all involved in the projects from initial ideas to the final product.

Front's design objects often communicate a story to the observer about the design process, about the material it is made of or about conventions within the design field. In their work they have assigned part of the making of design to animals, computers or machines.

They have made a constantly changing interior, created objects with explosions, robotic furniture and a range of furniture inspired by their fascination with magic.
