En nätt liten pendel med en distinkt geometrisk silhuett. Vid närmare betraktande ses tunna lameller som skapar transparens, skiktar och distribuerar ljuset. Sprinkle klarar rollen som rummets solitär lika bra som multiplicerad i ett större landskap – många ger rum som vibrerar av ljus och färg. Armaturen kommer i sex specialkomponerade färger. Därav namnet "Strössel".

A small pendant light with a distinct geometric silhouette. Upon closer inspection, thin slats are apparent that create transparency, layers and distribute the light. Sprinkle can play the role of the room's leading light, or just as good, act in an ensemble of lights multiplied throughout a larger space; many make the space vibrate with light and colour. The fixtures are available in six specially composed colours; hence the name, which refers to the vibrant cake topping.
