      inmates in the program will be low crime offenders – this will also give the inmate a skillset and
      they will be giving back to the community. She also explained that this will be a great
      opportunity to start getting all of the buildings cleaned out and they can also assist with
      maintenance, snow removal and lawn mowing. Mr. Jacobson explained that the inmates will be
      in groups of four with a Supervisor and can work up to 6 days per week. Mr. Ellis indicated that

      inmates. Mr. Pascale noted that having an Inmate Work Program available is a wonderful
supplement to the Land Bank and that it’s a great theory and concept- he further noted that he has had a great experience working with these types of programs, that the inmates are reliable and hardworking – this also opens up opportunities for employment once they are released. Ms. Harper questioned if this initiative was vetted through the Community Advisory Committee, Ms. Bronson said that they have not had an opportunity to discuss it with the Committee yet as the discussion just occurred with the Sheriff, after the last Committee meeting.

Ms. Bronson discussed the importance of establishing an RFP and to encourage local organizations. She added that she encouraged members of the Community Advisory Committee and everyone present to present her with local contractor’s right in the target neighborhoods as she would like to establish a list of contractors in each area.
