It’s imperative that the community supports each project and local people are hired within the focus areas- if people are not included or contractors are not hiring local people, there will not be any support from the community. Celeste and the Community Advisory Committee would like to see the Board to revise the language in any RFP to include the words “local contractors”.

   iv. James Gary
      Mr. Gary reported that he is part of the Albany Housing Project in the South End and that he was said to say that housing is being constructed and no one is being hired from within the South End, when those people desperately need work.
