   v. Hand-out from NY Land Bank Association: Area’s the association focuses on include interpretation of the Land Bank Act, communications strategies, day-to-day operations and programming, and best practices to be learned from land banks elsewhere, etc. This informal association has been funded through a grant from the Ford Foundation; with ten active land banks throughout New York grant funds are depleted. The association is looking for an annual
A contribution of $1,500 to continue advocating for land banks’ collective interests across New York. Discussion: Mr. Calderone asked when they would become a formal association and if they could offer healthcare options. Mr. Jacobson commented that the land bank will be the face of change within our communities and one organization needs to be the face of all to raise money, lobby issues and advocate throughout the State. Mr. Barrett asked if consideration of the bank settlement money could be used to fund this association. Mr. Jacobson replied in agreement and said that land bank funding should come from all sources. Ms. Bronson noted that there is not any action needed to move forward with this at this time, at the next meeting a resolution will be available to vote on to approve the $1,500 to join the NY Land Bank Association.

vi. Focus Area’s: Clinton Avenue: Between First Street and Henry Johnson Boulevard- a meeting is scheduled on Thursday with ACDA to discuss further. South End: the Community Advisory Committee did a walkthrough of the area and provided feedback and potential opportunities. West Hill: First Street is key in development; it will be a learning curve as there has not been any previous expansion in that area. One request of the Community Advisory Committee: Contractors, local businesses and people should be utilized within the focus area’s neighborhoods that want to work on each project. Discussion: Ms. Harper asked if there is a more streamlined approach to reach out to people within these area’s that would be interested in working on each project, such as electricians, general contractors, painters, laborers, etc. Mr. Jacobson suggested that this will be a great opportunity to teach neighborhood men and women how to do skills based work as well.
