1. Public Comment:
No public comments were received.

2. Review and Approval of August 2020 Minutes:
Minutes of the August Board Meeting were approved as presented. The motion was approved unanimously. (T. Curley, D. Traynham)

3. Review of Financial Statements:
The monthly financial statements as of 8/31/2020 were presented to the Board of Directors by the Executive Director. They were reviewed and discussed at the Finance Committee on September 9, 2020. The Executive Director noted that the Land Bank is working on the 2021 annual budget and will present it to the Finance Committee in October and seek to adopt it at the October 20th Board Meeting. With respect to the budget, he mentioned that uncommitted savings will likely need to be used going forward as the Attorney General Grant funds are being diminished. Although the Land Bank is currently under the 2020 projected sales revenue, this was expected due to COVID-19, and the Land Bank still has a large backlog of pending properties to close on which will help close or eliminate the gap. This year, lot cleanups are down primarily because the Land Bank has acquired less property this year. The Land Bank will have some stabilization grant money left at the end of the year and it’s likely that those funds will need to be reallocated, subject to Grantor approval, towards demolitions, where there is a greater need. The Land Bank has recently completed a full rehab of 95 Elizabeth Street, and was awarded a preservation award from the Historic Albany Foundation. Demolitions are at their projected costs and funds available for demolitions are being spent down as projected. Property maintenance costs are lower than anticipated
so far this year, but winter is coming and with it, snow removal costs. The Executive Director clarified that value of donations of properties acquired from Albany County has decreased from the previous year as a result of adopting the practice of reducing the book value of the properties to better reflect the market value of the properties as recommended by the Land Bank’s auditors was adopted this year, along with fewer properties being acquired this year due to COVID-19’s impact on Albany County. The accounting changes impact the Land Bank’s Net Income calculations presented in the financial statements making the year-to-year figure look very drastic. Pastor David Traynham asked if we could determine prior to receiving properties how much value we expect to return to the tax rolls. The Executive Director explained that it is difficult to get an accurate figure of the taxable value returned across the County. Samuel Wells explained that the annual report includes similar data that Pastor David Traynham was referring to.

4. Adopting a Resolution to approve the sales of multiple properties:

Property purchase offers for each property presented to the Board this month have been reviewed by the Acquisition & Disposition Committee, which convened remotely earlier in the month in connection with NYS COVID-19 Executive Orders. 5. Executive Director Updates

   a. Underserved Communities Updates

   The Executive Director presented updates from the Underserved Communities Committee. There has been progress on working with Community Development Financial Institutions to increase access to capital for more community members so that in turn more people can access the financial resources need to purchase and rehabilitate Land Bank properties. Work continues on developing policy recommendations that seek to create more equitable opportunities and the Executive Director anticipates some recommendation will be presented to the full Board of Directors in the near future.

   b. Update on South End Master Development Agreement

   There is progress on the Master Development Agreement with Toporovsky Realty and MDG Design and Construction but there some points that will continue to be discussed. The Executive Director explained that there could be a special Board Meeting in the coming weeks to approve the plan as the timing will determine if this project will apply for State funding deadlines. Currently, the Land Bank is not receiving new properties from the County due to COVID-19’s impact on the County’s process. The Land Bank will use the time to focus on continued disposition of the Land Bank’s current inventory.

The meeting was adjourned at 4:46pm. (S. Wells, N. Alexander)
