

CONSTRUCTION UPDATE

STOCKYARD HILL
Wind Farm

#04 – April 13, 2018

The Stockyard Hill Wind Farm preliminary works continue to progress, with formal construction yet to commence.

Preliminary works on the dedicated wind farm quarry (located on Stockyard Hill-Wangatta Road), including the construction of a dam, are progressing well.

The works may result in an increase in traffic flow mainly along Beaufort-Skipton Road and Stockyard Hill Road.

There may be some minor interruption to traffic in the coming weeks due to upgrades of Stockyard Hill Road.

To find out more information about the project head to www.stockyardhillwindfarm.com.au
