

## END OF SUMMER UPDATE

Through your support the National Desert Storm War Memorial Association has made great progress these past few months.

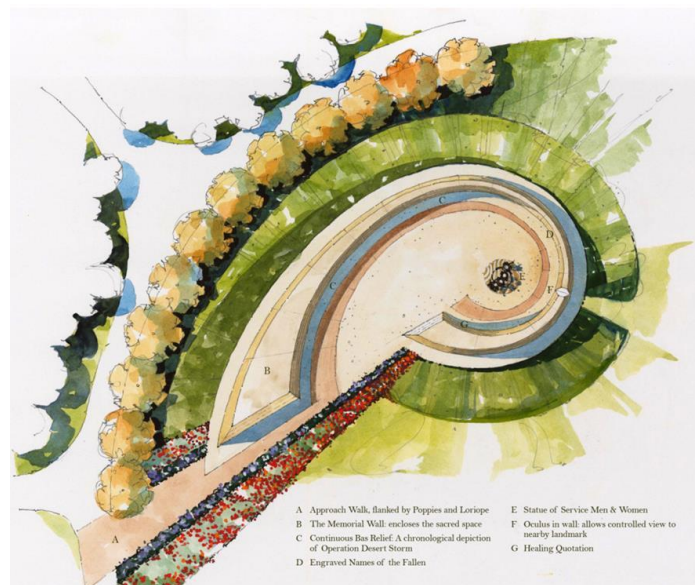

The House of Representatives passed our legislation (HR 503) unanimously.

With the help of dozens of supporters calling their Senators, we have broad support within the Senate.

We are hopeful that all of this work will be fruitful, and that the Senate will pass S995 when they reconvene this session.

Once the legislation is passed, the real work begins. We will begin earnest efforts to raise the donations needed to build the Memorial.

Thank you for your continued support!
