REPAIR INSTRUCTIONS

1. Thoroughly clean the damaged area of the liner that needs to be repaired. Allow enough time for the section of liner to dry. Fig. 1

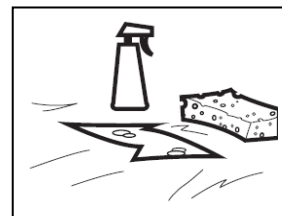

Fig. 1

2. Cut a section of the patch large enough to cover the tear in the liner, with a few inches of overlap in all directions. Fig. 2

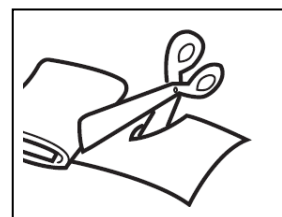

Fig. 2

3. Remove the paper backing from the patch and place it over the damaged area of the liner. Press down firmly on the patch to secure it to the liner. Fig. 3
