SPEAKERS

ROBERT ADAMS, D.E., P.E.

**Principal Engineer
Plummer Associates**

Robert Adams is a Principal Engineer in the Austin office of Plummer Associates, with BS, M Eng., & D Eng. degrees from Texas A&M University. He has been assisting clients with solutions to water supply, quality, and environmental problems for over 30 years. He develops sustainable solutions by applying both natural and conventional treatment approaches for wastewater and biosolids. He has led a broad range of projects from water

resources planning and conservation efforts to water quality planning and watershed management. Over the last 15 to 20 years Robert has primarily focused on wastewater treatment plant improvements.

PERRAN HUTTON, P.E.

**Project Manager
Plummer Associates**

Perran earned his bachelor's and his master's degree from the University of Birmingham (United Kingdom), with a focus on water resources and environmental engineering. Upon graduating he worked for Veolia Water in a variety of engineering roles, the latter focusing on wastewater treatment optimization as a process engineer in Edinburgh, Scotland. After a year with the

Environment Agency he moved to the United States and started working for Plummer Associates in 2017. Working in the wastewater design team and obtaining his PE license. He has been part of several wastewater treatment master planning, preliminary engineering, and detailed design projects in Texas since.

MEETING SPONSOR

Lloyd Gosselink believes the law exists to improve and protect the lives of the people in Texas. And as one of the first environmental law firms founded in Texas, Lloyd Gosselink has continually evolved to meet thier clients' ever-changing and expanding demands in new areas of expertise. The firm's original core practices in environmental and utility law have grown to include practices in renewable energy, business transactions, commercial litigation, and employment law.

Next Meeting – May 16, 2023
