SPEAKER

Michael Sims, P.E.

**Director of Compliance and Enforcement,
Texas Board of Professional Engineers and Land Surveyors**

Michael Sims currently serves as the Director of Compliance and Enforcement with the Texas Board of Professional Engineers and Land Surveyors. He has been with the Board since June 2018. Michael previously was the Special Projects Manager and Manager of Environmental Permits within the Oil & Gas Division of the Railroad Commission of Texas and worked in Air Permits at the Texas Commission on Environmental Quality. He holds a B.S. in chemical engineering from the University of Texas at Austin and has been a licensed professional engineer since 2010.

Durability. Reliability. Dependability. AmeriTex puts their customers first with products that are second-to-none. They're revolutionizing the way concrete pipe is made.

AmeriTex controls every aspect of production from start to finish, so they deliver the highest quality products on time, every time. As an independent supplier, they have the capacity and flexibility to serve a broad range of needs — from small residential developments to massive highway projects.

With locations in Seguin, Conroe and Dallas, AmeriTex is the premier supplier of reinforced concrete pipe and box in Texas. They stock ready-to-ship products in many standard sizes and configurations. And when your project calls for specific dimensions, joint types and strength ratings, they can easily re-tool production to meet your exact specifications. It's AmeriTex's job to make your project a success.
