*complete renovation of a turn-of-the century home*

*hollywood regency style*

# 401 MIDLAND

“The process of designing each of our unique homes begins with an appreciation of the *surrounding architectural context*, site topography and position of the sun. Understanding these fundamentals provides us *inspiration and guidance* to create exciting and distinctive design themes. Themes guide us in architecture, interior design and landscape”.

— MARK WEISS

Weiss completely updates the home and adds a refreshing look by embracing the Hollywood Regency style. Materials of brass, smoked glass and hardwoods are mixed with colors of black, gold, cream and honey. Details of lacquer and geometric patterns with splashes of jewel tones combine to create the hippest look in Wayne.
