obody loves their freedom like Americans and our friends the Scotts.

Brewed as a strong ale, aka “wee heavy” Freedom Scotch Ale is an ode to the classic big, rich beer originally brewed across the pond, but has found a new home and rabid following here in the USA. Maris Otter acts as the base with a kiss of smoked Beechwood for meatiness while 10 Black lends it the rich deep color. Fuggle hops complete the authenticity of this English inspired ale. “They may take our lives but they will never take our Freedom Scotch Ale”, at least that’s how we feel about it.
