

COVID-19 School Site-Specific Protection Plan Guidance & Template

Guidance for Developing Your School's COVID-19 School Site-Specific Protection Plan (SSSPP)

1. Establish a multi-disciplinary Task Force (ie, teachers, custodians, school secretaries, para-educators, parents, students, and administrators) to develop and support this School Site-Specific Protection Plan who will meet regularly to monitor Public Health Information and adjust the plan based on input from all stakeholders as needed.
2. Perform a school site walkthrough with the Task Force of your campus, classrooms, multi-use rooms, and office spaces and use the protocols, guidance and best practices detailed in the Public Health Guided Return to Site-Based Classroom Instruction as a guide for conducting your assessment.
3. Develop and finalize your SSSPP and train staff before site-based classroom instruction begins.
4. Use the template below to create your own SSSPP by filling in the required details, based on your individual school site/school or district office, to mitigate the transmission of COVID-19, under the guidance of the Public Health Officer.
5. Finalize your SSSPP to distribute to staff and families and post on your school website. You may also post a copy at your school or office at a visible location, at or near the main entrance where students, staff and visitors can easily review it without touching the document, or post a Certificate of Completion (included below) with information on how to review the plan in its entirety online.
6. Post signs at each of the primary staff and student entrances to inform all students, staff and visitors that they should:
 - If you have COVID-19 symptoms, do not enter the facility;
 - Maintain a minimum six-foot distance from one another;
 - Sneeze and cough into a cloth or tissue or, if not available, into one's elbow;
 - Wear face coverings, as appropriate; and
 - Do not shake hands or engage in any unnecessary physical contact.

Templates for signs can be downloaded for use from the [Marin Recovers website](#).

Tools for Developing Your School Site-Specific Protection Plan

1. COVID-19 School Site-Specific Protection Plan (SSSPP) Template

The Marin County Office of Education is providing this template that can be used by any school or district in Marin to create their own School Site-Specific Protection Plan (SSSPP). It contains all of the standard content already written for you to re-open your school or school office and prompts you to "fill in the blank" where unique information is required in order to complete your SSSPP. The template has been reviewed and supported by Marin County's Public Health Officer.

2. School Specific Best Practices

The MCOE Rethinking Schools Task Force is monitoring updated guidance from the Center for Disease Control, the California Department of Public Health, the California Department of Education, and Marin County Public Health to support and promote emerging best practices to share with the school community in Marin. These best practices are based on alignment with local, state and federal guidelines in coordination with the county's Public Health Officer.

Specific Control Measures and Screenings

Please provide as much detail as possible for how you intend to implement each guideline. If you need additional space, please provide an attachment.

1. All activities are consistent with and will adjust to changing applicable state and local Public Health Orders. A multi-disciplinary Task Force has been established to develop and support this School Site-Specific Protection Plan, who meet regularly to monitor and adjust the plan based on input from all stakeholders.

Please see attached COVID-19 Prevention Plan; the Five Keys safety team works under the permissions of the Marin County Sheriff's Office who authorizes Five Keys Independence School to enter its facilities. The most protective policy is the one that Five Keys will implement, in the event school protocol differs from Sheriff's Office protocol.

2. Health and safety practices and protocols are in place, including hand washing, appropriate face coverings, and access to essential protective equipment, and up to date student and staff attendance tracking.

Yes, please see attached COVID-19 Prevention Plan.

3. Training is provided to all staff, students and families reinforcing the importance of health and safety practices and protocols.

Yes, please see attached COVID-19 Prevention Plan

4. A primary and secondary point of contact are established, identified, and trained at each school site to direct questions or concerns around practices, protocols, or potential exposure. These points of contact will also serve as a liaison to Public Health and contact information is identified in the School Site-Specific Protection Plan. (Points of Contact listed above).

Yes, the COVID-19 Response Coordinator is the primary contact, and our Marin County Principal is the secondary point of contact.

5. Plans are implemented for intensified cleaning and disinfecting, including training for staff and access to cleaning supplies and essential protective equipment, and regular disinfecting of frequently touched surfaces.

Yes, please see attached COVID-19 Prevention Plan.

6. Health screening for students and staff are conducted as advised and updated by Public Health. On July 23, 2020 the Centers for Disease Control and Prevention provided updated guidance on screening K-12 students emphasizing that parents and caregivers must monitor their children for signs of infectious illness every day at home, and universal symptom screening for K-12 students is not required. Staff should conduct daily health screening self assessment, which may be completed through an online survey. ([Sample MCOE Staff Health Screening](#))

Yes, Five Keys defers to the on-site medical staff at the Marin County Sheriff's Office regarding safety screenings for students and has a robust home & arrival at work protocol for staff to screen themselves for any signs or symptoms of COVID-19.

7. Staff and students who are sick are expected to stay home and an isolation area is identified for students who begin to exhibit symptoms during the school day, until they can be picked up.
Describe placement of designated Isolation Area:

Yes, please see attached COVID-19 Prevention Plan.

8. Schools and districts will cooperate with Public Health to support testing strategies to mitigate transmission of COVID-19, including testing for staff at the beginning of the school year, and then no less than once every two months. This may include testing of students with appropriate parental permissions obtained in advance. (Identify testing vendors, if applicable)

Yes, however at the time of this update asymptomatic screening is no longer required for students and staff once the county enters the orange / yellow tier.

9. Protocols, actions and template communications are in place for the following COVID-19 related scenarios (link: [Marin County Public Health Protocols & Communication Templates](#) for each scenario):
- a. A student or staff member either exhibits COVID-19 symptoms or has a temperature of 100.4 or above.
 - b. A family member or someone in close contact with a student or staff member tests positive for COVID-19.
 - c. A student or staff member tests positive for COVID-19.
 - d. A student or staff member tests negative for COVID-19 after symptoms or confirmed close contact.

Yes, please see attached COVID-19 Prevention Program.

10. Where practicable, physical distancing of six feet is maintained between adults and adults and students; four feet distance is permissible between students within a classroom or instructional area where requirements herein are in practice.

Yes, please see attached COVID-19 Prevention Program.

11. For elementary schools, stable classroom cohorts (up to standard class size at each respective grade level) are maintained throughout each school day, and through each quarter or semester, with an assigned primary cohort teacher, and systems are in place to prevent the mixing of classroom cohorts.

n/a, our programming is grades 10-12.

12. For middle and high schools, larger cohorts made up of students from more than one classroom may be arranged as long as accurate attendance data for students and adults is maintained on a daily basis while avoiding schoolwide mixing of students and staff.

Yes, see attached COVID-19 Prevention Program.

13. Where practicable, desks are arranged facing forward to minimize face to face proximity between students.

Yes, see attached COVID-19 Prevention Program.

14. School staff are permitted to visit and instruct more than one classroom cohort, following physical distancing and face covering protocols, and must document/record visits to classrooms that are not identified as their primary classroom cohort.

Yes, see attached COVID-19 Prevention Program.

15. Routes for entry and exit to the campus will be designated for each classroom cohort, using as many entrances/exits as feasible.

Yes, see attached COVID-19 Prevention Program.

16. Schedules for arrivals, recess and lunch will be strategically coordinated to prevent mixing of classroom cohorts.

Yes, although schedule for student movement is coordinated by Marin County Sheriff's Office, so exact plan subject to their COVID-19 protocol.

17. Congregate movement through hallways will be minimized as much as practicable.

Yes, although student movement is coordinated by Marin County Sheriff's Office, so exact plan subject to their COVID-19 protocol.

18. Large gatherings (i.e., school assemblies) are currently prohibited.

Yes, see COVID-19 Prevention Program.

19. The use of outdoor space for instructional purposes is maximized, shared, and coordinated to ensure students remain in their cohort. Efforts should also be made to maximize fresh air flow in classrooms through existing ventilation systems and opening of windows and doors as much as possible.

Yes, although Five Keys Independence High School operates inside the Marin County Jail, preventing total authority on how classroom spaces are arranged. Airflow will be maximized to the extent that the Sheriff's Office permits.

20. Use of shared playground equipment will be limited in favor of physical activities that require less contact with surfaces, and shared equipment will be cleaned between uses.

n/a

21. Use of non-classroom space for instruction such as gymnasiums and multi-use rooms should be considered to support physical distancing with cleaning between uses.

n/a

22. Meals will be served outside as much as possible or in classrooms instead of cafeterias or dining room with individually plated or bagged meals as much as practicable.

n/a

23. Routines and schedules will be developed to enable students and staff to regularly wash their hands at staggered intervals.

Yes, although student movement is coordinated by the Marin County Sheriff's Office and is therefore subject to their internal COVID-19 Prevention Program.

24. All staff as well as all students in grades 3 - 12 are required to wear face coverings while in the classroom and on campus unless there is a medical or behavioral contraindication. Students from grades TK - 2 are strongly encouraged to wear face coverings and should be supported and taught how to wear them properly.

Yes, see COVID-19 Prevention Program.

25. Training will be provided for staff and students on proper use of face coverings which will include instruction to minimize touching of face coverings.

Yes, see COVID-19 Prevention Program.

26. Sharing of supplies, manipulatives, toys, sports equipment, and other learning and recreational materials will be limited and each student will have separate individually labeled boxes or cubbies.

Mostly n/a, although supplies brought to the classroom for assessments and in instruction will be sanitized between uses. See COVID-19 Prevention Program.

27. Sharing of electronic devices, clothing, books and other games or learning aids will be avoided as much as practicable.

Mostly n/a, although supplies brought to the classroom for assessments and instruction will be sanitized between uses. See COVID-19 Prevention Program.

28. Use of privacy boards or clear screens will be considered as much as practicable.

Five Keys operates inside the Marin County Jail and therefore any classroom modifications are subject to command staff approval. As best as possible Five Keys will recommend all safety suggestions in COVID-19 Prevention Program.

29. Non-essential visitors, including parent volunteers will be limited and essential workers will be required to adhere to all health and safety guidelines.

Yes, see COVID-19 Prevention Program.

30. A [School Site-Specific Protection Plan](#) outlining the above measures is completed, posted and shared with all stakeholders and updated as state and local Public Health guidance dictates.

Yes, COVID-19 Prevention Program link accessible to anyone on the Internet using the following link:
