

Service Menu

With each lesson, you get one-on-one time with a tutor who is matched to your student's needs and your schedule, personalized lesson resources, and unlimited contact with a tutor after your lesson.

Our tutors meet with parents and students at public locations that are convenient for them. Occasionally, tutors will meet at a student's home if all parties agree. We ask that parents stay with students under the age of 18 unless the student has his or her own car.

Your tutor will provide you with personalized suggestions and a plan to address your student's specific needs. After each lesson, you will receive a detailed lesson summary documenting what was covered during the lesson, any problems that came up, and proposals for the future.

Individual Tutoring - \$50/hour

Let us help your student deal with tough concepts and homework quickly and effectively. We'll use the class book and work through recent subjects and homework assignments. Additionally, we will assess any gaps in knowledge from previous courses and recommend outside problems to patch up these holes.

--- Check out our PowerUP Package - \$180/ 4 hours of Individual Tutoring! ---

Small Group Lessons - \$30/hour

Lessons held with multiple students (maximum 4), all students must be studying the same subject at the same level and be self-organized.

Current Subjects:

Mathematics at all levels, Elementary Education, Sciences, Standardized Tests (math only), and English and Language Arts
