

Payment Information

We have no contract or sign-up fee. You only pay for the time you use! We do not require pre-payment, but ask that balances be paid within twenty-four hours of the lesson being held.

We primarily accept credit card payments online over the phone. Payments are processed using a secure and encrypted service called Stripe. You can purchase tutoring in 30 or 60 minute blocks, or a package of four hours of tutoring (at a 10% discount).* Payments can be made online at www.mpowertutoring.com/payonline.

We provide a detailed lesson summary after each lesson, outlining what material was covered and serving as a receipt of services. Prepaid lessons or card charges will not be applied until after a lesson summary is sent to the client.

If a lesson summary is received and the lesson has not been pre-paid, the company will send an invoice for services or charge the card on file. We require that all balances be paid in full twenty-four hours in advance of the next scheduled lesson.

****Please Note:** It is the client's responsibility to track expiration dates and time remaining on prepaid packages.*
