“I made a drawing of a movie that inspires me: Nausicaa of the Valley of the Wind”
-Arturo

Nausicaa, is a young leader from a country with a lot of challenges. She takes care of her people, but when she needs to relax, she goes to a garden she created where she feels safe. The plants create fresh air that is healing for Nausicaa.

If you could make your own garden, what would it feel like? What would it smell like? What would the fruits taste like? What plants would you grow and how would they heal you?
