WAMX member Joda says,
“The ribbons that extend from the butterflies (in the bathroom mural) remind me that our lives don’t have to be limited. We have choices and can go in so many different directions to explore all our options and possibilities.”

WAMX ARTIST STATEMENT
We all act as pollinators in our communities, by collecting and dispersing nutrients in the form of information, ideas, resources, and images wherever we go. WAMX pollinates spaces with art to help the community come together, to learn, grow and connect. WAMX believes in not being ethically and inclusively made by and for our community. WAMX believes in the power of art. We take that power and responsibility of being a public artist very seriously. WAMX uses art to express feelings, pose questions, and amplify youth voices.
