TAM, LYFT, & WHISTLESTOP PARTNER
Partnership to increase access to SMART stations in Marin County, CA
Launch date: September 12, 2017 (6 month pilot program)

The Transportation Authority of Marin (TAM) in San Rafael, California has partnered with both Lyft and Whistlestop to make it easier for riders to get to and from Sonoma-Marin Area Rail Transit (SMART) stations in Marin County. Through this six-month pilot program, riders can receive $5 off Lyft Line rides within the Marin county service area any time during the SMART hours of operation, as long as the ride either starts or ends at an eligible SMART station. Whistlestop will provide ADA service to eligible riders. This partnership, funded by Marin’s annual Vehicle Registration Fee, started September 12 and aims to promote shared rides to facilitate convenient, on-demand travel, while also reducing both congestion and parking demand.

Mobility on Demand Workshop

OVERVIEW
ITS America and the Shared-Use Mobility Center, with support from FTA and in partnership with both the National Center for Mobility Management and APTA, are hosting a two-part workshop to discuss the challenges of Mobility On Demand (MOD) and explore solutions. This free workshop will feature presentations on the latest MOD deployments and include interactive discussion on ways to improve implementation. Participants will address questions such as how can MOD services be better integrated within existing transportation systems, what common challenges have MOD deployments faced, and how can successful MOD partnerships be cultivated across the country?

The workshop immediately follows APTA’s Annual Meeting & EXPO at the Georgia World Congress Center in Atlanta, GA.

WHEN
Wednesday, October 11th, 2017
1:00 to 5:30pm EST

WHERE
Georgia World Congress Center,
Room B313
285 Andrew Young International Boulevard
Northwest
Atlanta, GA 30313

REGISTER
Registration and additional information can be found here.
