ITS America Opens Attendee Registration and Housing for June 2018 Annual Meeting in Detroit, MI

WASHINGTON, D.C. – The Intelligent Transportation Society of America (ITS America) is pleased to announce attendee registration and housing is now open for the organization’s 2018 Annual Meeting, to be hosted at Detroit’s COBO Center June 4-7th.

“From automotive powerhouses to innovative start-ups, we’re thrilled to have such positive feedback and participation from the transportation industry as we count down to our Detroit event,” said Shailen Bhatt, ITS America President and CEO. “Our session and paper submissions, highlighted speakers, and exciting exhibit and technical demonstrations are shaping the June conference into the premier event for ITS professionals to attend in 2018.”

The annual conference brings together 2,000 academics, policymakers, manufacturers, engineers, entrepreneurs and investors from the automotive, telecommunications, cyber security and technology sectors to debate how the rapidly changing intelligent transportation industry is addressing the challenges facing our mobile, connected societies.

The theme for 2018 is Transportation 2.0 - The Future of Transportation. The program will concentrate on moving people, goods and supplies through Smart Communities; the pressing issues of Cybersecurity and Big Data Usage; and future technologies in Autonomy, Connectivity, and Sustainable Energy Models.

Session and papers are being accepted through March 1st.
