International Ocean Literacy Survey
Recruitment Script

Please read this message/script from Mac Cannady to students 15-17 years old who might complete the Survey:

Hello, my name is Mac Cannady, and I am a researcher from the Lawrence Hall of Science at the University of California, Berkeley. We are conducting a project to learn about how youth, like you, think about and experience marine science learning.

We have created a survey to help understand your thoughts about marine science. If you agree to participate, we will ask you to take a survey one time. The survey will take approximately 30 minutes.

(Your organization name) will provide you with an informational letter from our research team describing this project. There is one letter for you and one for your parents. Please take these letters home and read them carefully with your parents. Participation in this survey is voluntary. If you do not want to participate, that is okay.

If you or your parents have any questions about this project, you can contact me directly. My contact information is in the letter.

Thank you!
