OVERVIEW
The Community Action Agency of Somerville, known as CAAS, is changing lives for our community members who are furthest from opportunity. For over 40 years, we have been helping local families and individuals achieve financial security while working to eliminate the root causes of economic injustice. Our largest offering, Head Start, is a free preschool program that promotes school readiness. We offer comprehensive developmental preschool and wraparound services to ~275 low-income, culturally diverse children and their families each year in Somerville and Cambridge. Our six centers are fully open for in-person learning. Our Head Start program is integrated with our Housing Advocacy, Tenant Organizing, and Income Maximization programs to provide a full suite of anti-poverty services. We are proud to be a source of stability and support for our community.

WHAT MAKES US UNIQUE
We have a highly dedicated, seasoned team and an organizational structure that allows us to support our clients holistically. The Head Start Leadership team is highly collaborative and includes leaders with expertise in family engagement, health and nutrition, disabilities, and teaching and learning. We have a generous budget for professional development and a mindset of saying "yes" to whatever will help us better serve low-income children and families of Somerville and Cambridge. The person who joins our team will interact with a supportive director, peer leaders, and a committed group of coordinators and educators with a shared mission.

ABOUT THE LEAD TEACHER ROLE
The Head Start Lead Teacher oversees and implements a safe, healthy, and developmentally appropriate classroom for children 3 to 5 years old in accordance with EEC regulations and Head Start performance standards. Head Start lead and assistant teachers work as a team and in close collaboration with parents/caregivers and family and supportive services staff to ensure that children and their families are prepared for Kindergarten.

Responsibilities include:

- Maintain a classroom structure and daily schedule designed to promote children’s development pursuant to the learning objectives outlined in the Head Start Early Learning Outcomes Framework and via the established classroom curriculum.
● Plan and implement curriculum in conjunction with the program-wide curriculum schedule, while ensuring individualization to meet each child’s unique needs.

● Use culturally competent classroom management techniques that promote each child’s self-esteem and self-help skills, using the positive discipline approach to help children resolve conflicts and manage behavior.

● Conduct fall, winter, and spring formal assessment of each child using the Teaching Strategies Gold online assessment platform. Share assessments and discuss each child’s growth with parents during one-on-one conferences.

● Ensure ongoing communication with key Head Start staff regarding each child’s development and family well-being. Carefully document concerns and bring them to the attention of the Education Specialist and Family Advocate. Attend Case Conferences as needed to discuss plans for children needing additional support.

● Prepare and maintain all routine documentation and other paperwork required for state licensure and under our meal program and federal grant requirements.

● Follow proper health and safety protocol to ensure the classroom environment and all daily activities strictly adhere to established health and safety protocols.

● Create a culturally responsive and welcoming environment for each family; encourage family participation in classroom routines and special events. Conduct a home visit at each new family’s home at the start of each year and host an open house to welcome all families to the school year to build bridges between school and home. Check in verbally with each parent at either drop-off or pick-up times on a daily basis. Actively value each parent as the expert in their child and engage them in a collaborative approach to their child’s development.

● Provide supervision and guidance to the Assistant Teacher and any classroom volunteers and/or substitute teachers, while on-site. Participate in assistant teacher annual performance reviews by providing observations and insights to the Education Director, as appropriate.

● Participate in coaching when offered and in supervision meetings with the Education Specialists and/or the Education Director.

● Attend all required team meetings, advocate meetings, program meetings, and in-service training days, as schedules permit.

● Pursue ongoing professional growth and maintain compliance with state and federal professional development and qualifications requirements through relevant in-service and external training opportunities.

THE IDEAL CANDIDATE
The ideal candidate has direct experience in an early childhood setting, excellent supervisory skills, and a deep passion and commitment to ensuring a high-quality educational experience for CAAS Head Start children and families.

Professional Background and Skills:

● EEC Lead Teacher qualification
● Bachelor’s degree in Early Childhood Development or related field
● Minimum 18 months experience working with young children
● Ability to continue to meet Head Start professional development requirements.
