UNYS Face Mask Opportunity!

It appears that wearing Face Masks is with us for the foreseeable future. It is required by NYS during these days and has been strongly recommended by the CDC moving forward. A report I heard last evening was that tens of thousands of lives could be saved, transmission to millions avoided and the virus put down if, for the next two weeks, everyone wore one.

In light of all of the above we have developed a unique Face Mask opportunity. We are working with a graphic artist and come up with a simple mask for you to wear. Printed on the left hand side of the mask will be the words: Micah 6:8

Perhaps folks who see your mask will ask you what Micah 6:8 is and it will offer an opportunity to say something simple about hunger and justice.

It is washable, has a built in feature that will conform to the bridge of your nose (taking away the fogging up of glasses if you wear them) has adjustable ear bands and an insert for filters that can easily be purchased on Amazon or perhaps elsewhere. These are being offered for your use but also for another cause. Each year at Synod Assembly we gather to worship, work, and collect funds for World Hunger. We lost that opportunity this year due to the virus and we would like to offer you the opportunity, via a purchase of a mask, to contribute to the cause.

The masks cost $8.50 to produce and will sell for $15.00. $5 will go to World Hunger and the extra $1.50 will go toward shipping the mask to you. My wife and I will match every mask purchased with a $5 matching gift to World Hunger.

You can order your mask by sending a check for $15 to the Synod office with Face Mask written in the memo line or order on-line at GIVING and scroll down on giving types to Face Masks for World Hunger

The masks will be arriving in two weeks and will go fast. Once the original order runs out we will order more to have on hand. If your shipment will be delayed because of stock running out and having to order more, you will receive an email to let you know.

Be kind to others by wearing a mask. Prevent the spread of Covid 19. Help to feed those who are hungry.

Win. Win. Win.
