

The Citizens' Transportation Coalition met monthly, addressing each of these issues. The topics of those meetings are summarized below.

### ***September 2017 – System Preservation and Optimization***

- How do we **preserve** our investments in transportation?
  - What do we expect and desire?
  - What does that cost?
  - How is it paid for?
- How do we best **optimize** our system?
  - How do stretch and prioritize our investment?
- What do other communities do?

### ***October 2017 – System Growth***

- Review current growth patterns and strategies
- How is it paid for today?
- What do other communities do?
- Is this what we want?

### ***November 2017 – Cost of Preservation, Optimization and Growth***

- What will it cost to provide the quality of life we are seeking for Lincoln?
- How is it paid for today?
- What tools does the city have available to fund this?
- What other options for funding might there be?

### ***December 2017 – Conclusion***

- To what degree does the Coalition support changes to the city's standards, specifications and practices to provide state of the art practices?
- To what degree does the Coalition support the need for additional transportation funding, and to what amount?
- To what degree does the Coalition support various tools currently available to generate this funding?
- What other future sources does the Coalition support exploring?

In the following sections of the report, we will discuss in detail:

- System Preservation
- System Optimization
- Current Budget and Funding
- Peer City Review on Preservation and Optimization
- Growth and Development
- Annexation Policies
- Peer City Review on Growth
- Funding the Gap
- Conclusions
