

SPONSOR STARTINCLE

SUPPORT OUR COMMUNITY

Cleveland's startup community needs your help. We are challenged by small numbers of engaged people, minimal interest in our efforts, sparse press coverage and a shallow network of supporters. As a founder led grassroots community, StartInCLE acts as a strong advocate for change without crazy overhead or politics.

CONNECT WITH STARTUPS

Since we're a founder led and focused organization, sponsoring StartInCLE affords your organization direct access to dozens of startups and businesses of all stages with hundreds of founders and employees. Sponsorships typically include attending events, inclusion in communications to founders, and branding at events and on signage. It's common for sponsors to find new customers at our events.

LEVERAGE OUR STARTUP DNA

Need to spark innovation in your organization? Work with our team to learn the best ways to connect and work with early stage and high growth companies. From networking mixers to incubator and accelerator programs, we have ideas and examples of how corporations have changed their culture by engaging startups.
