Digital media is the language that shapes our contemporary society.

Whether for learning, business, social interaction, activism, or entertainment, digital media influences everything from who we vote for to how we spend our money and the communities we join and embrace.

Through media arts education, Wide Angle Youth Media cultivates and amplifies the voices of Baltimore youth to engage audiences across generational, cultural, and social divides.

Now, after more than 20 years of learning, creating, and building, we have an incredible opportunity:

Wide Angle has been invited by Seawall Development to serve as lead tenant of the new Service Center building on Howard Street – a civically engaged building with two floors of commercial space and four floors of living space for those working in the civic leadership sector in Baltimore. Importantly, the Service Center is a chance to expand our physical footprint and build Wide Angle’s first-ever state-of-the-art community center, learning lab, and production space.
