

Albany High 9th / 10th Grade Math Placement Policy 2016/17

Incoming 9th graders from AMS:

8th grade math teachers will determine student performance on course formative and summative assessments and over all class grades in 8th grade. Those assessments determine 9th grade placement. 9th grade teachers will make adjustments if necessary. Student's placement will be into the Math One, Math One Plus or Math One/Two. All students will receive standards based instruction that will allow them to progress to the next appropriate level in 10th grade. Questions should be directed to teachers, administrators or counselors, Administrators, appeals to placement will be reviewed on a case-by-case basis.

All 10th grade AHS students:

Student performance on course formative and summative assessments and over all class grades in 9th grade determines 10th grade placement. The potential placements are in Math Two, Math Two Plus and Math Two/Three. 10th grade teachers will make adjustments if necessary. Questions should be directed to teachers, administrators or counselors, appeals to placement will be reviewed on a case-by-case basis.

*All 11th grade AHS students:

Student performance on course formative and summative assessments and over all class grades in 10th grade determines 11th grade placement. Placement will be either Math 3 or 3+ and the Math 2/3 H kids will move on to PreCalc H. 11th grade teachers will make adjustments if necessary. Questions should be directed to teachers, administrators or counselors, appeals to placement will be reviewed on a case-by-case basis.

*Implementation in the 2017/18 school years

Please direct questions, comments and concerns to AHS Math Department, AHS Guidance Department and AHS Administration.
