Black Ace

Sire: DHH Sandakan

Dam: racing trottingbred pony

Ace is homozygous black. He stands 60 inches tall and is that handy buggy pony size. He is well broke, has a sweet disposition, and a lot of drive. If you want to raise that popular buggy pony or a smaller horse, consider Ace. He is registered with ADHHA.

NOTICE: Our local trucker goes to Shipshewana every Wednesday and Topeka every Tuesday and can assist in trucking if needed. Please call for more information.

TIPS ON AD DESIGNS

As the owner and designer of Regal Design Group, I would like to share a few insights on what is needed on your part as the client wanting an Ad designed. We strive to provide you with the best quality ads showcasing your stallion or horse/product, but can only do as well as the photo that is provided. To explain myself a little, a photo is made up in “dots per inch” (dpi), which tells you how good a photo really is. The more “dots per inch” the better quality the image. What we consider a High Rez photo is one that exceeds 300 dots per inch. It will bring out the fine details and hair of a horse very well. A smart phone and many lower cost cameras will only shoot at 72-96 dots per inch (dpi) which in many cases looks very good on screen but horrible in print. We highly recommend having someone professional shoot your equestrian photos like Prestige Equine Photography.

If you are looking for a quality ad and print materials, give us a call! We are a trusted source for many in the equestrian market. We have a lot to offer from the design concept to the printing stage. From simple marketing materials to banners and signage.

**Watch for upcoming ads on our 2020 Stallion Calendars
and Stallion Playing Cards!**
