

## Mouse excluder for use with Erayz stoat lure Friends of Rotoiti

This device is made from Whites Mouse & Snake Mesh which is 6.5 mm X 6.5 mm and is available from Bunnings Warehouse in 5 or 10 meter rolls.

The template is 37 squares X 33 squares producing a 70 mm X 70 mm X 70 mm cage. We staple the cage to the end bar of the hinged-top box as shown however it could be hinged off the base or side of a conventional box.

The Erayz is fixed to a central nail with 2 flathead nails keeping the bait off the trap base to prolong field life.

It will not exclude wasps.
