National STEPS Network

Founded in 2003

All Volunteer Umbrella Org.

Members:
Operators, Contractors, OSHA, NIOSH, API, IADC, AESC, IPAA, Educators. others

Template for any industry

“Focus on the Boot”

www.nationalstepsnetwork.com
• First STEPS Initiative
• Envisioned as the first tier of a three-tier program
• Operator Driven
• Photo ID cards are issued to students, similar to the contractor safety councils, and listed in a national searchable data base.

• Over 940,000 students have been through orientation to date since January, 2010.

...We were told that this would never work.
Tier Two:

• OSHA 5810 – Hazards Recognition and Standards for On-Shore O&G Exploration and Production

Tier Three:

• Leadership Course for Oil and Gas Leaders
National STEPS Network
OSHA/NIOSH
National Alliance

December 2, 2014

RCS Focus Group

• Formed May 24, 2012
• Industry, OSHA, NIOSH, API, AESC, OSHA Ed. Centers
• 120 (+) US & Canadian active members
• Three work Groups:
  — Industrial Hygiene Monitoring
  — Engineering Controls
  — Communication
Emerging Issues FG
  — RCS, Tank Gauging, NORM, Diesel Particulates
Values and Priorities: Protect Workers

• Personal Safety and Chronic Disease
• Science and Technology is improving exponentially
• Safety and Health improvement is slow to change.
• Pockets of Excellence – We know it is possible.
• We work from the field up with OSHA
• STEPS brings the industry and regulators together
• Share incidents, best practices and reg. changes
• Understand trends and take quick action
  entirely preparing for an increase in production
Ronnie’s Story
Congratulations from your South Texas Family On 36+ years of faithful service.

Then, Two months Later...
• Dad
• What are others teaching our children?
• What are we teaching our children and grandchildren?
• What will be our legacy? This is all up to us.
